Titan HST

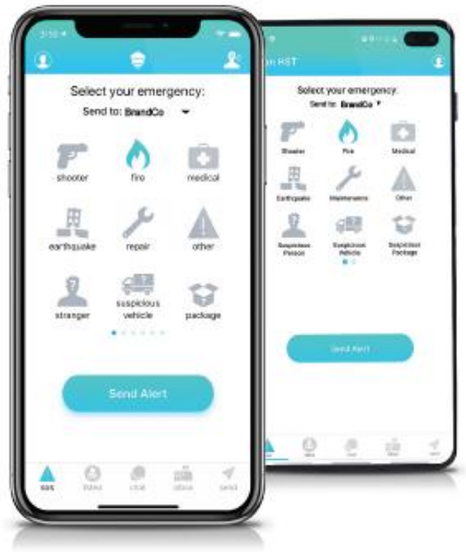

2-Way Mass Emergency Communication Platform

The Future of Safety

mgr-assoc.com

SOFTWARE

"Titan HST is an incredibly powerful asset to help quickly analyze and subsequently mobilize emergency personnel to help them take the necessary action to prevent and minimize loss of life."

JOHN VENTURO
Police Search & Rescue Pilot
Suffolk County Police Department

2-WAY MASS COMMUNICATION PLATFORM

Emergency 2-way mass communication platform enhanced with Augmented Reality, Mesh Networking, Real-Time Translation, Beacons and Video Medicine.

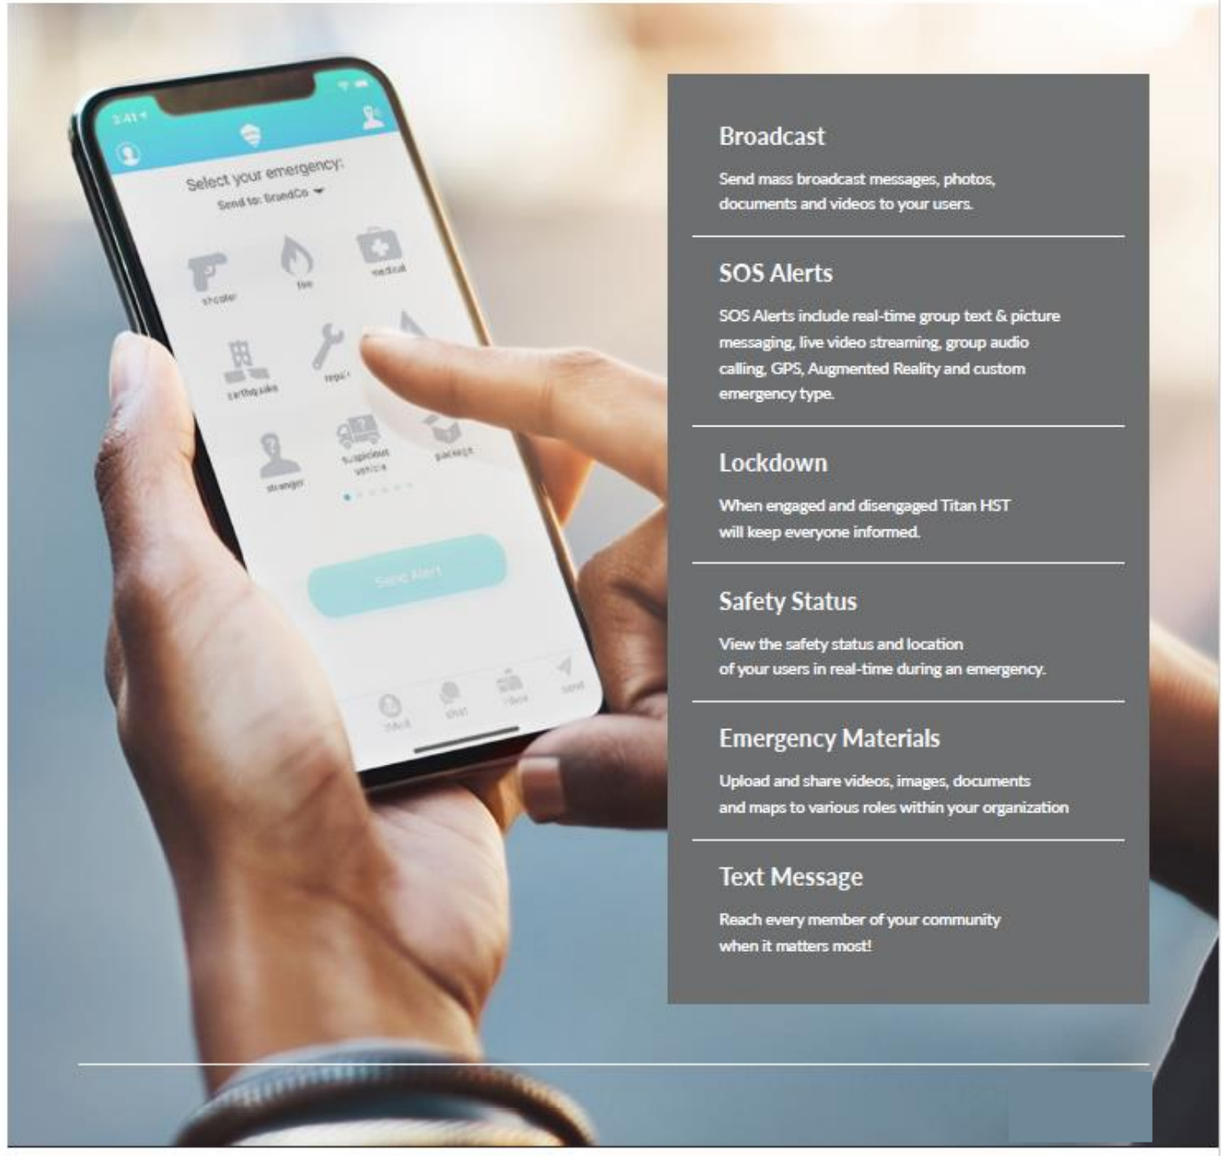

FEATURES

Compatible with iOS and Android devices.

- 2-way SOS Alerts
- 9-1-1 Dispatching
- Admin Management
- Anonymous Tips
- Augmented Reality
- Auto-Call Service
- Broadcast Commenting
- Critical Push Notifications
- Custom Message Broadcasting
- Detailed Direction Sharing
- Cloud-based Document Repository
- Geofencing
- Group Audio Calling
- Group Chat
- Group Video Calling
- Instant Lockdown Notification
- Live Video Streaming
- Location-Based Services
- Mesh Networking
- Photo Messaging
- Preset Message Broadcasting
- Real-Time Translation
- Role Management
- Social Media Integration
- Status Request
- Video Medicine (tMed)
- Voice Message Broadcasting
- and more!

Available on the App Store

Google Play

Broadcast

Send mass broadcast messages, photos, documents and videos to your users.

SOS Alerts

SOS Alerts include real-time group text & picture messaging, live video streaming, group audio calling, GPS, Augmented Reality and custom emergency type.

Lockdown

When engaged and disengaged Titan HST will keep everyone informed.

Safety Status

View the safety status and location of your users in real-time during an emergency.

Emergency Materials

Upload and share videos, images, documents and maps to various roles within your organization

Text Message

Reach every member of your community when it matters most!

INTRODUCING TITAN HST

Award-Winning & Multi-Patented, Industry Leading, 2-way Emergency Mass Communication Platform

When disaster strikes, strike back with the best technology on the market. Have piece-of-mind knowing that Titan HST has your back, every day.

Millions of incidents happen every year in America. Titan HST connects people, including staff, maintenance, security personnel, guests, and more via mobile app, text message, e-mail, web, social media and auto-call.

Save lives, prevent injury and reduce property damage by mitigating liability exposure. Reducing emergency response time by an average of over 50% helps ensure business continuity and reunification.

Titan HST prides itself on providing ADA compliant technologies to make safety accessible to all.

*Phone not included. Visual is for representational purposes of auto-call service feature.

SOFTWARE

Powerful, Life-Saving Technology in the Palm of Your Hands

Every. Second. Counts. Instantly warn people of Lockdowns and send Broadcast Messages with updates and instructions to keep people out of harm's way or to help coordinate a response or reunification.

Redundant communication via: **Mobile Apps, Web Portal, Text Message, Email, Auto-Call, Facebook or Twitter.**

Lockdown your organization instantly, reduntantly and reliably with Titan HST.

KEY FEATURES

- **Broadcasts & Lockdowns**
- Augmented Reality
- Beacons
- Mesh Networking
- Real-Time Chat & Translations
- Safety Status
- SOS

SOFTWARE

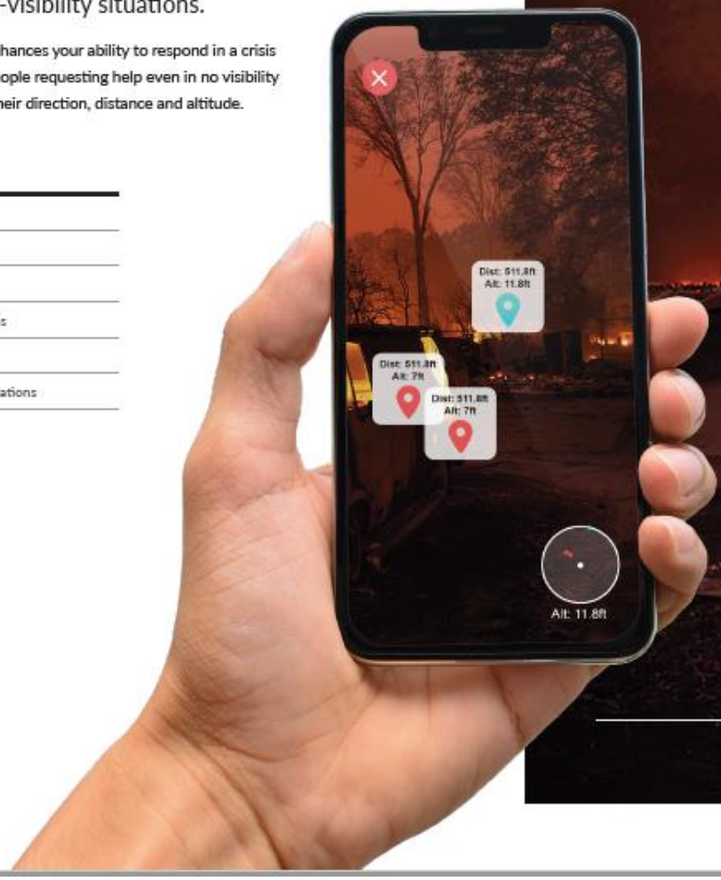

We Help You See Through The Toughest Situations.

Find people through smoke, fire, rubble and other zero-visibility situations.

Augmented Reality enhances your ability to respond in a crisis by helping you find people requesting help even in no visibility situations, including their direction, distance and altitude.

KEY FEATURES

- **Safety Status**
- Augmented Reality
- Beacons
- Broadcasts & Lockdowns
- Mesh Networking
- Real-Time Chat & Translations
- SOS

DUAL-CHANNEL MESH GATEWAY

No Wi-Fi? No Cell Signal? No problem!

Send and receive important information even when networks are down, overloaded or out-of-range.

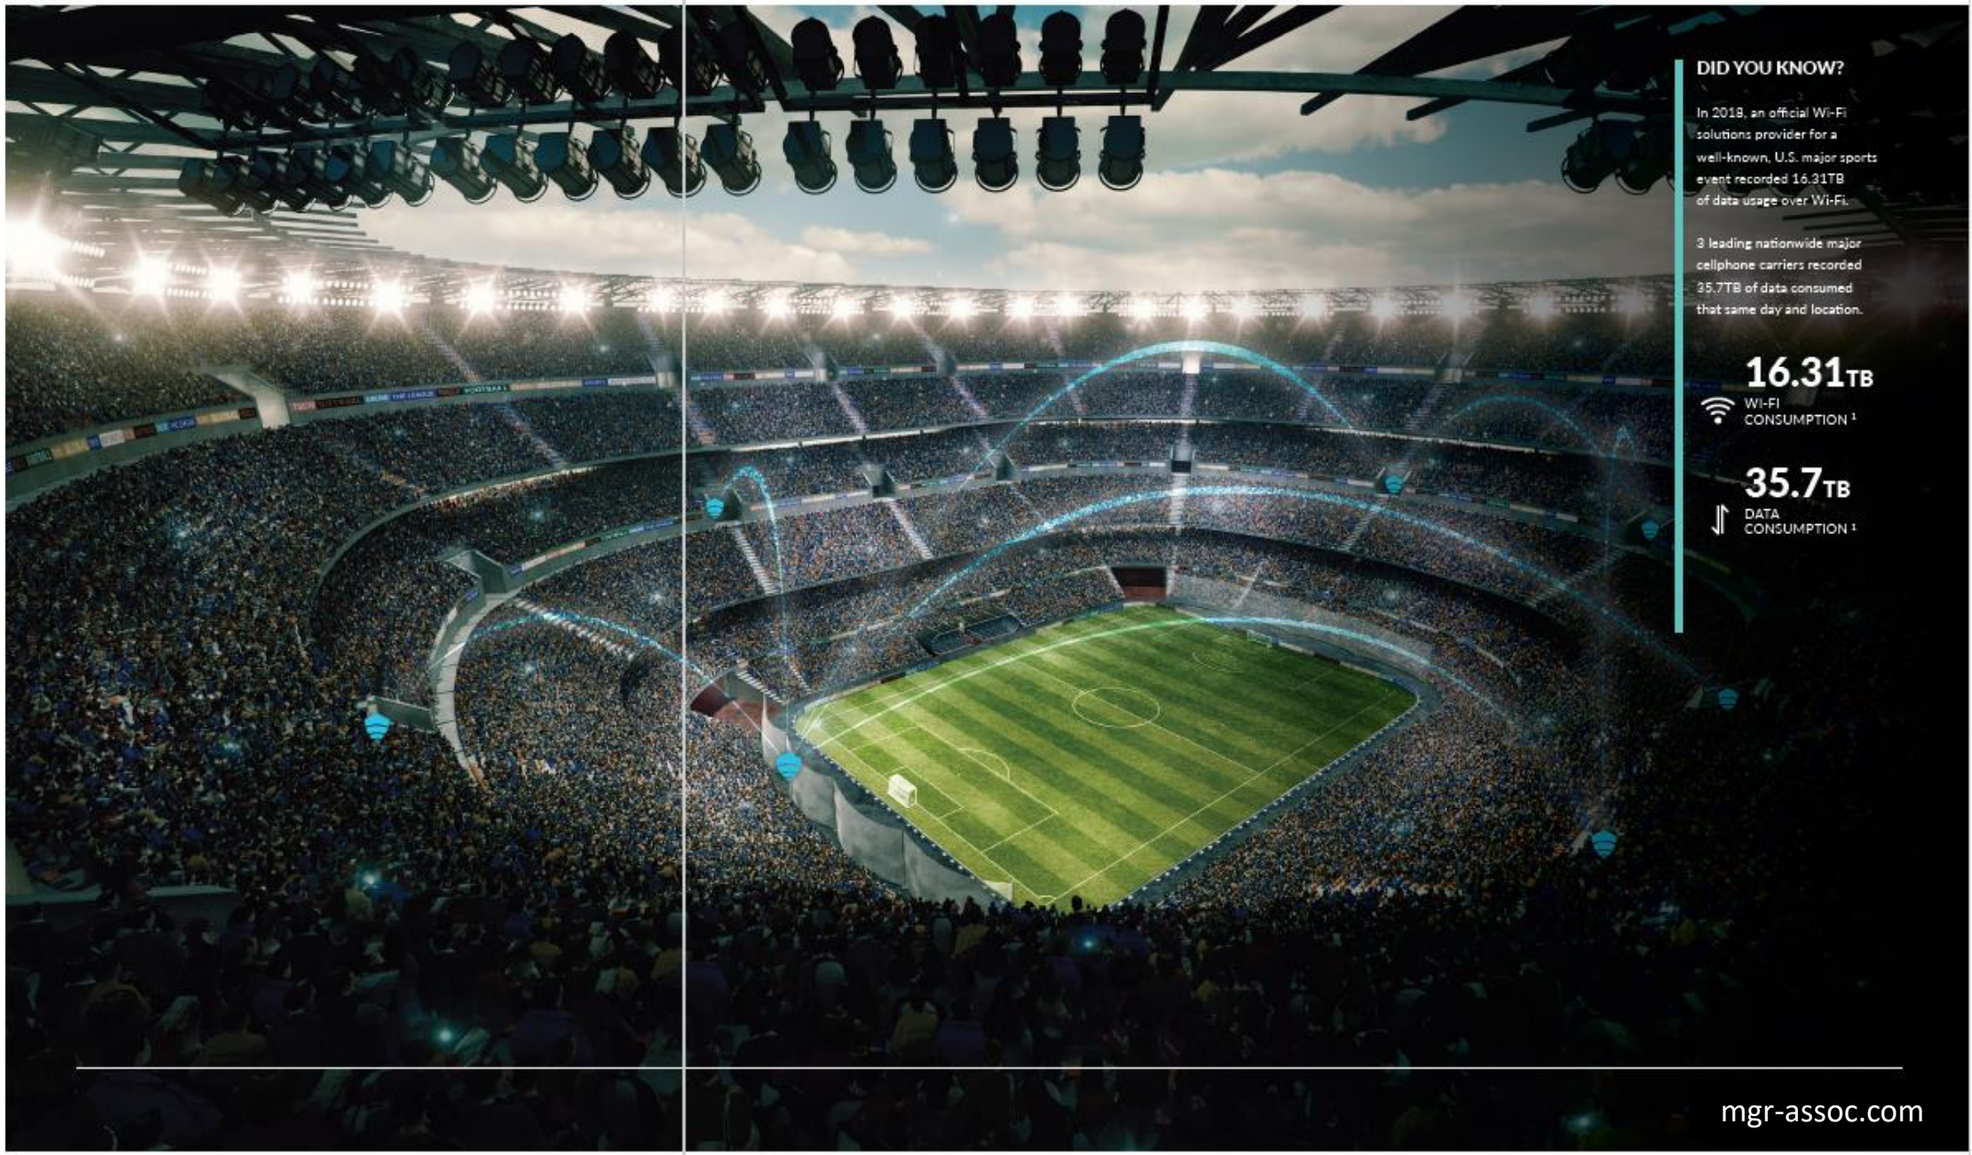

Mesh Networking via Titan HST creates an ad hoc network by connecting mobile devices directly to each other when regular connections fail. Further improve safety with battery backed-up Dual-Channel Mesh Gateways to bridge connections when mobile devices aren't close enough to connect directly via Mesh Networking.

Dual-Channel Mesh Networking Gateway

KEY FEATURES

Dual-Channel: Wi-Fi & Bluetooth
Various Mounting Methods: On-Ceiling, walls, and more. With foam adhesive or with screws.
Power: Plugs-in for constant power with built-in battery backup.
Mesh Gateway Node with Battery Backup
SOS Alert Button Relay
Monitor Health of Titan HST Hardware

SOS EMERGENCY ALERT BUTTONS & BEACONS

Help As Easy As 1-2-3

Combining the power of Titan HST's Beacons and SOS Emergency Alert Buttons allows your organization to quickly find and send help to those in need during an emergency.

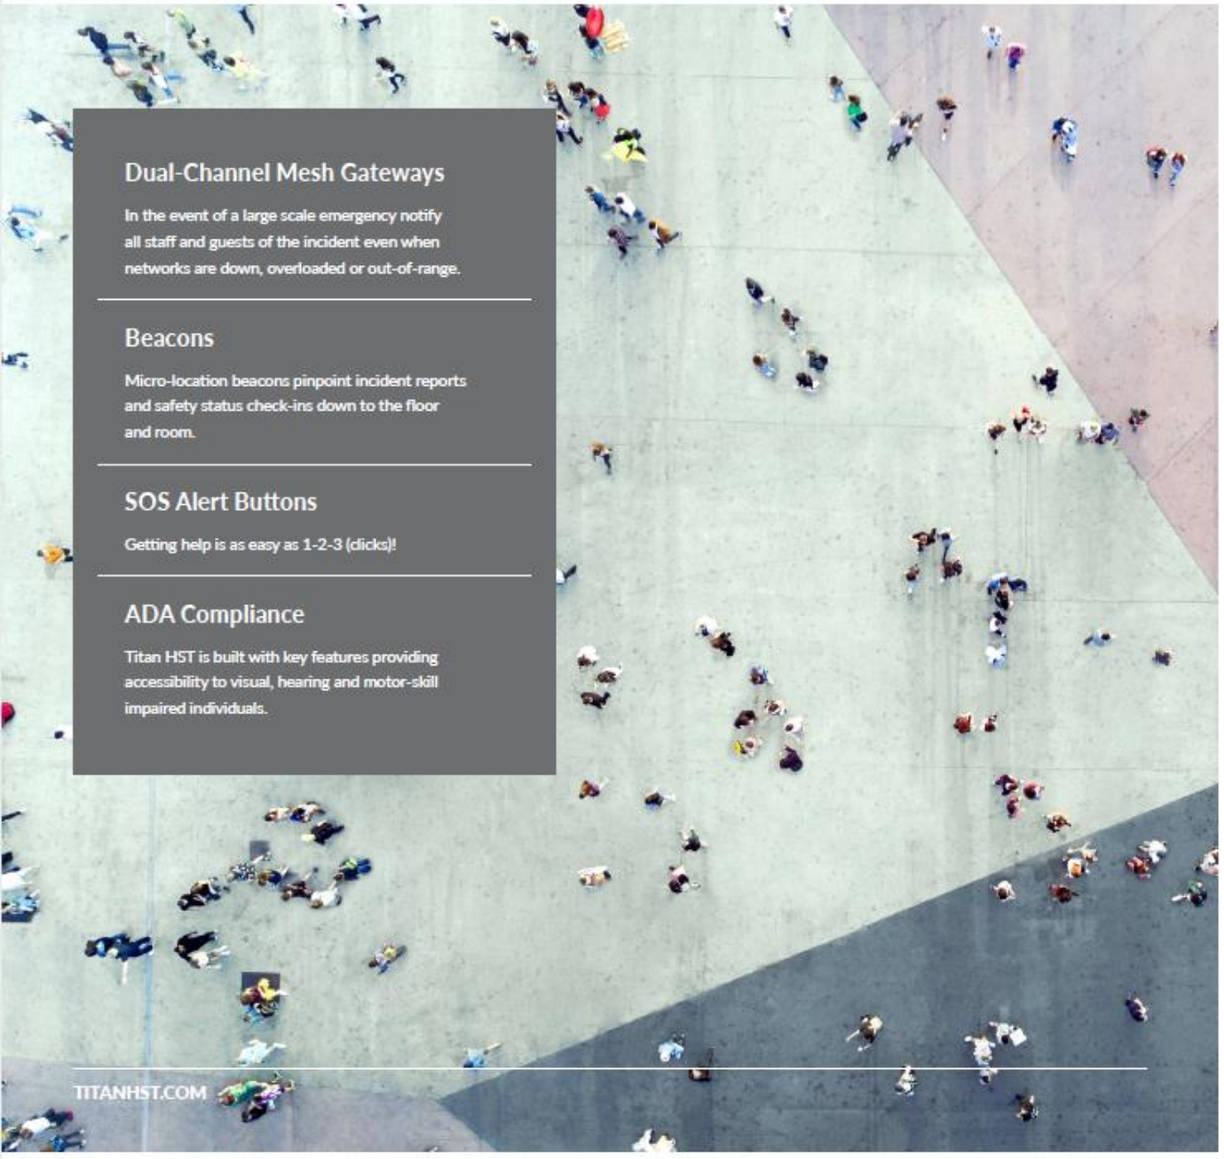

A triple-click of our SOS Emergency Alert Buttons sends help to your location immediately. Titan HST's Beacons allow designated personnel to pinpoint a person in need down to the floor and room! Combined with our award-winning Augmented Reality, designated personnel can scan through buildings to find and send help immeidately.

Beacons are compatible with SOS Emergency Alert Buttons, SOS Alerts sent via the Titan HST Mobile App as well, and more!

KEY FEATURES
Micro-Location Detection
Discreet & Reliable
Instant Response
No App Required

Dual-Channel Mesh Gateways

In the event of a large scale emergency notify all staff and guests of the incident even when networks are down, overloaded or out-of-range.

Beacons

Micro-location beacons pinpoint incident reports and safety status check-ins down to the floor and room.

SOS Alert Buttons

Getting help is as easy as 1-2-3 (clicks)!

ADA Compliance

Titan HST is built with key features providing accessibility to visual, hearing and motor-skill impaired individuals.

TITANHST.COM

HARDWARE

DUAL-CHANNEL MESH GATEWAY

Dual-Channel Mesh Networking Gateways provide several layers of redundancy, hardware health monitoring, and connectivity for App-based Communication, Beacons, and SOS Emergency Alert Buttons.

BEACONS

Beacons provide the micro-location of users, including location, room and floor, who request help via SOS Alert Buttons, SOS Alerts and Safety Check-In via mobile app during a Safety Status Request.

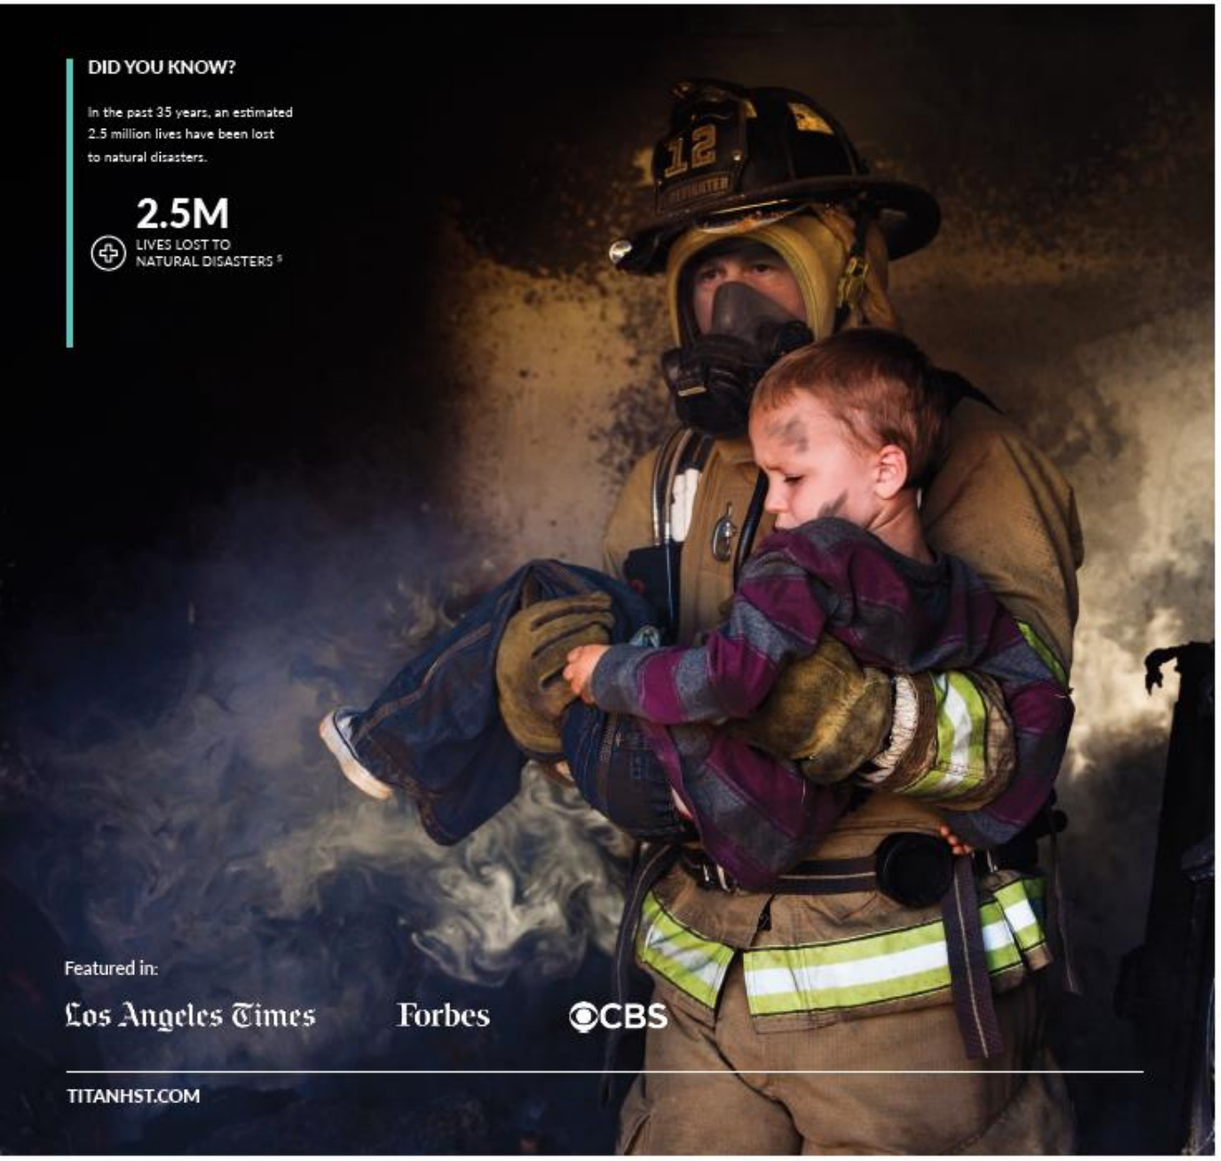

SOS EMERGENCY ALERT BUTTONS

SOS Emergency Alert Cards can function independently from the Titan HST mobile app. A mini-version of the Titan HST SOS Alert Card, the SOS Emergency Alert Button functions the same as the SOS Alert Card at a fraction of the size.

ADA COMPLIANT

The Talk of the Town

"The Titan HST' emergency communication security platform offers the most comprehensive, instantaneous, simple and effective tools that I have observed and field-tested. The on-campus results are a true testimony to its value in enhancing school safety. Specifically, the 50% reduction in emergency response times is invaluable during emergency situations and often times life-saving."

DAVID LONG
CEO, Dave Long & Associates
Former California Secretary of Education

"I have used other mass notification systems throughout my career, the Titan HST system is the most intuitive system that I have put my hands-on."

TODD T. DE VOE, MPA
Instructor of Emergency Management
Host, EM Weekly
