Titan HST

WE'RE STILL EXCITED TO SHARE

Titan HST earned its DHS SAFETY Act Designation

Titan HST is now a designated **Qualified Anti-Terrorism Technology** (QATT) under the U.S. Department of Homeland Security's SAFETY Act.

What this means for you:

Liability Mitigation and Added Confidence

Organizations deploying Titan HST benefit from liability protections tied to the system's performance during a covered event, helping reduce risk exposure.

Independent Federal Validation

This designation follows a rigorous DHS review of our technology's effectiveness, reliability, and real-world performance.

Easier Internal Approval

QATT status provides a credible, government-backed credential that can streamline procurement, legal review, and compliance discussions.
